

Environmental Protection

Great wide, wonderful world,
With the wonderful waters round you curled,
And the wonderful grass upon your breast,
World, you and wonderfully blessed.

William Brighty Rands

We hope you will agree with us

that

everybody

wants

to live in a safe world

We are given the world that is...

Unique

Wonderful

Beautiful

***What makes
our world
beautiful?***

Blue oceans,

seas and rivers,

**lakes and
waterfalls**

High mountains and beautiful gardens

Green forests and parks

***What makes
our world
wonderful and unique?***

rainforests

and

steppes

various

mammals

***Plants and
flowers***

But our world is in danger...

There are several kinds of environmental pollution

air pollution

solid pollution

**T

e:**

soil pollution

water pollution

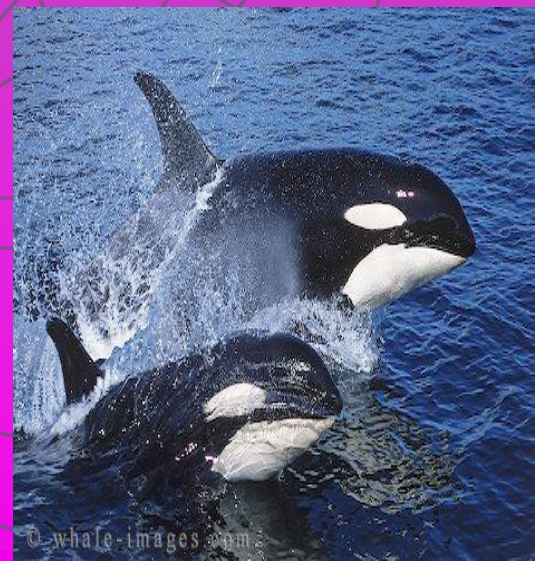

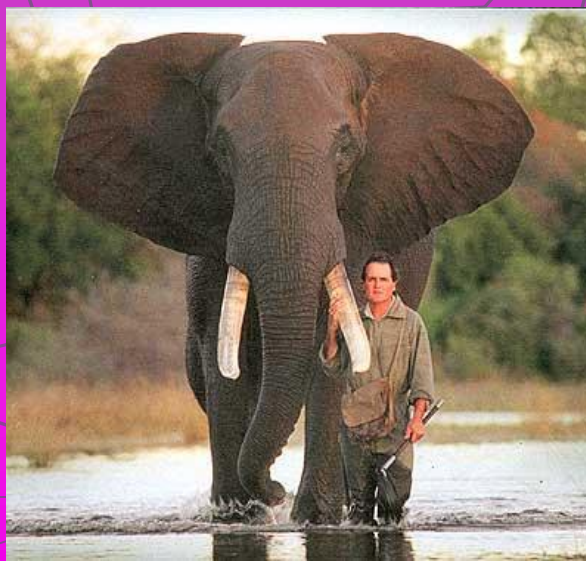

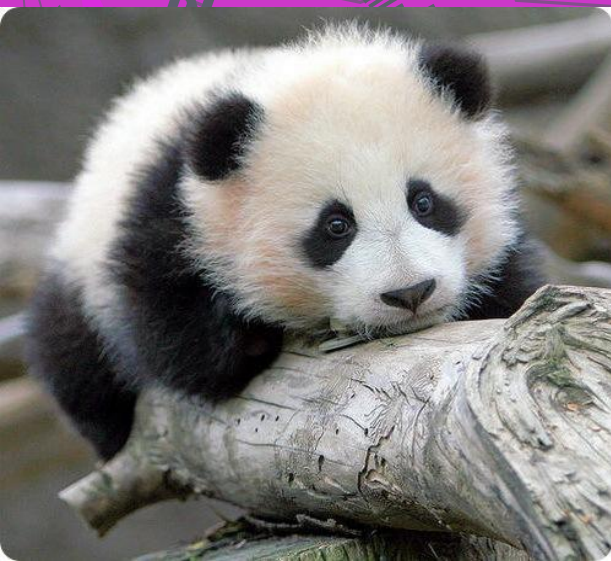

**All kinds of pollution
cause acid rains,
death of animals,
plants and even people...**

**What is this life, if full of care
We've no time to stand and stare.
No time to see when woods we pass
Where squirrels hide their nuts in grass.
No time to see in broad daylight
Streams full of stars like skies at night.
A poor life this is, if full of care,
We have no time to stand and stare.**

**We might lose
these animals forever**

***Only when all the rivers have run
dry***

And all the fish in the sea have died

***Only when all the rainforests have
been burnt down***

***And there is no food for the
animals***

***Only when all the blue skies have
been filled with smoke***

***And the cities of the world have
choked***

***Will the white man understand that
It's too late to save the earth.***

A hand holding a pen is pointing to a grid on a spiderweb. The grid is composed of concentric circles and radial lines, creating a complex pattern. The hand is positioned at the top right of the grid, with the pen tip pointing towards the center. The background is a dark, textured surface.

**It's high time for us
to do everything...**

*What must we do as
soon as possible?*

If I were leader
of my country,
I would ban cars
because they cause
much pollution.

If I were leader
of my country,
I would stop logging
companies
from destroying the
rainforests.

If I were leader
of my country,
I wouldn't allow hunters
to kill endangered species.
