### Introduction, Learning Outcomes

Through presenting the main spiritual movements and social changes in Europe, and their influence on architectural approach through characteristic buildings and sculptor's studios, students discover the concept of architecture and the different types of drawings characteristic of this era.

### General Course Description and Main Content

This subject is a follow up course in the history and theory of architecture, and summarizes ancient Christian events and architecture in the Middle Ages based on monumental architecture. The objective of the subject is to present the mainstreams of development, the evolution of medieval architecture and intends to improve knowledge of theoretical and historical aspects of architecture. Aesthetic standards and awareness are improved through the following topics: spread of Christianity, sacred and profane architecture in the Middle Ages, outstanding architectural monuments of Romanticism and Gothicism in Europe and Hungary.

### **Semester task**

Students have to answer simple questions during the lectures. Each questionnaire will contain three questions. If the students are listening carefully to the lectures, they will be able to answer every question.

Besides the questionnaires students have to draw two simple drawing tasks and one complex, so called semester drawing. The simple drawing tasks should be drawn during a lecture. The task is always related to the previously presented lectures of the semester. This means that in a simple drawing task students have to make small drawings or sketches about a topic that was discussed during the previous lectures. All drawings should be prepared on draft papers in the size A/4.

The semester drawing should be drawn at home. This task is about a single building. Students have to draw a perspective and if it is possible a floor plan and a section or façade of a building. The buildings will be chosen by the lecturer. The drawing should be prepared on a draft paper in the size A/3.

Any kind of manual technique can be used, but pencil is preferred. The use of computer is not allowed.

The semester drawing should be handed in on the last week of the semester (14.12.2016).

Semester tasks should be handed in latest two weeks after the last lecture of the semester: 21.12.2016 10:00

Consultation: On the dates of the lectures and in email: [tmolnar@mik.pte.hu](mailto:tmolnar@mik.pte.hu)
