

General Information:

Name of Course: **WEB BASED SOFTWARE DEVELOPMENT**

Course Code: IVB474AN
Semester: 5th
Number of Credits: 4
Allotment of Hours per Week: 1 Lecture+2 practices /Week
Evaluation: Semester Grade
Prerequisites: Databases I, Programming3

Instructor: Dr Etelka SZENDRŐI, associate professor
Office: 7624 Hungary, Pécs, Boszorkány u. 2. Office N° B-215
E-mail: szendroi@mik.pte.hu
Office Phone: +36 72 503650 /23639

Introduction, Learning Outcomes:

During the Course, students will learn the basics and techniques of web based software development methods. They will be able to create database based applications in Microsoft ASP.NET environment.

General Course Description and Main Content:

Students will learn the following topics

ASP.NET Application Lifecycle. Structure of ASP.NET applications. Master pages, themes and skins. ASP.NET compilation model. Creating and configuring server side controls. Standard Controls, Advanced Controls (Calendar, Panel, Image, File Upload, etc.) Use data-bound controls (ListView, GridView, DetailsView, FormView, Tree, Menu, DataPager, etc.). Manage data using ADO.NET and LINQ. Entity Framework. Input control, Site Navigation, state management. ASP.NET Core technology.

Methodology:

- **Lectures:** Lecture presentations will cover the major concepts, methods and techniques of web based development.
- **Practices:** During practices we create different ASP.NET sample exercises.

Schedule:

Study period in 15 weeks: **September 7-December 18** (2020)

Tests: Accumulated knowledge is tested by two tests containing theory questions and coding tasks.

Week 7: Test 1

Week 14: Test 2

Week	Topic
1.	Introduction. What is ASP.NET? Classic HTML model. HTTP protocol.
2.	Architecture of web forms. Lifecycle of web forms. ASP.NET Controls. Server controls.
3.	State Management
4.	Validating user input. Validation controls. Client-side and Server side validation.
5.	Master pages. Styles. Navigation between pages. Menu structure.
6.	Data Manipulation. ADO.NET Entity Framework. LINQ.
7.	Test 1
8.	Autumn holiday
9.	ASP.NET Core 3.1 technology.
10.	ASP.NET MVC applications.
11.	Entity Framework Core technology.
12.	Lambda expressions. Authentication, authorization.
13.	Razor pages. Web services.
14.	Test 2
15.	Blazor.

Attendance:

Attending is required at all classes, and will impact the grade (max. 5%) of course. Unexcused absences will adversely affect the grade, and **in case the absence of more than 30% of the total number of lessons will be grounds for failing the class.** To be in class at the beginning time and stay until the scheduled end of the lesson is required, tardiness of more than 10 minutes will be counted as an absence. In the case of an illness or family emergency, the student must present a valid excuse, such as a doctor's note.

Grading:

The semester grade is determined as a combination of Test 1 (45%), the Test2 (50%) and attendance of lectures (5%). Factors such as class participation may be used to adjust your final grade, especially if it falls on a borderline.

All tests are closed-book and closed-notes. A student with a proper excuse of being absent from the test must inform and get a permission from the teacher prior to the time of examination. Any students who do not take the test at the scheduled time will receive a zero score.

Grading Scale:

Numeric Grade:	5	4	3	2	1
Evaluation in percent:	89%-100%	77%-88%	66%-76%	55%-65%	0-54%

Correction Period:

Course grade correction between December 17-31 (2019)

Students with Special Needs:

Students with a disability and needs to request special accommodations, please, notify the Deans Office. Proper documentation of disability will be required. All attempts to provide an equal learning environment for all will be made.
