#### Course resulting in mid-term grade (PTE TVSz 40§(3))

#### Mid-term assessments, performance evaluation and their ratio in the final grade

To complete the course students must deliver their presentation in due time (no presentations will be accepted in the exam period), and to do the final test with a result of min. 40%.

Type	Assessment	Ratio in the final grade
Final test	max 100 points	50 %

#### Opportunity and procedure for re-takes (PTE TVSz 47§(4))

Students can retake missed or failed tests only once. They can also re-sit the test if they want to improve their mark. In the latter case the result of the re-sit will be taken into consideration together with the original grade when the final course grade is calculated. By re-taking a test the grade can also be negatively affected.

#### Grade calculation as a percentage

based on the aggregate performance according to the following table

Course grade	Performance in %
excellent (5)	85 % ...
good (4)	70 % ... 85 %
average (3)	55 % ... 70 %
satisfactory (2)	40 % ... 55 %

fail (1)	below 40 %
----------	------------

The lower limit given at each grade belongs to that grade.
